Progress in NECOBELAC training activity

The project training programme envisages courses for trainers (T1) and replication activity at local level (T2) in Europe and Latin America. To date, the project partners performed T1 courses in **Brazil, Italy, Colombia, Spain, Argentina** and **Portugal**. Numerous training activities are being delivered at local level.

We encourage the participants in the NECOBELAC training courses for trainers to organize local training and thank those who already organized or planned some replication activity.

COURSES FOR TRAINERS

T1 - Mexico
Guadalajara
August 22-24, 2011

See the [programme](#) of the course "Difundir conocimientos en ciencias de la salud: el proceso de publicación y el acceso abierto" that will be at the Centro de Recursos Informáticos of the Guadalajara University.

Don't miss the opportunity to take part in the forthcoming **local courses**

T2 - Argentina

As a cascade activity of the Training course for trainers held in Buenos Aires, in May 2011, two courses will be organized in Argentina by the Ministerio de la Salud de la Nación: the first one will be in August 2011 in **Cordoba**, the second one in September 2011 in **Jujuy**

NECOBELAC in national and international events

1. International Society for Environmental Epidemiology

ISEE international conference provides an excellent forum for discussion of problems and benefits related to the environment and human health.

[ISEE conference](#) will be in Barcelona, Spain, on 13-16 September 2011.

The ISS and ISP project partners will present an implementation plan of the NECOBELAC network to promote cooperation among Italy-Colombia and Ecuador in Environment and Health:

“Scientific cooperation for a globalized awareness on environmental health risks and policies: developing NECOBELAC network to promote scientific collaborations in environmental epidemiology”.

2. PKP Scholarly Publishing Conference 2011

[Berlin, September 26- 28, 2011](#)

PKP | International Scholarly Publishing Conferences | 2011

NECOBELAC will be present at the the 3rd PKP conference inviting explorations of shared attempts to support alternative publishing and increase OA within scholarly publishing. The project partner CSIC and UNED will present their experience in creating the NECOBELAC topic maps:

“Creating online contents built on topic maps. The case of open access and scientific publication NECOBELAC training modules”.
